Rating Rationale and Key Rating Drivers

The ratings reflect JSCL's strong presence as a Holding Company in the financial sector with a basket of strategic investments most prominent of which are JS Bank, Bank Islami Pakistan, EFU Life Assurance and EFU General Insurance. While JS Bank is on its path to establish itself in the medium sized banking sector, Bank Islami, lately, achieved pre-provisioning operational break-even. Meanwhile, EFU Life and EFU General continue as a stable income stream for the Company. JSCL has made significant progress with its diversification strategy in energy, petroleum, and infrastructure segment. It is in the process of making investments in LPG storage and Oil Marketing Company. JSCL is envisaging an investment accretion of around PKR 4bln in the near term. This is predominantly being funded by its debt instruments. Although the investment activity has increased the debt exposure for the Company, it still remains within moderate limits.

Ratings draw strength from the Company's moderately leveraged capital structure and continuing growth trajectory in its existing strategic investments. Meanwhile, strict financial discipline in terms of coverages remains critical for ratings.

BUSINESS RISK

- **Performance Standalone:** JSCL's revenue mainly comprise Dividend Income and Capital Gains. These emanate from its strategic and non-strategic investments which stood at PKR 26.7bln and PKR 3bln, respectively, at end Dec '17. During CY17, JSCL's revenue stream witnessed a sharp increase of ~62% YoY clocking in at PKR ~1,533mln (CY16: PKR ~946mln). This is mainly due to higher dividend income (CY17: PKR 1,054mln, CY16: PKR 720mln) and higher realized capital gains (CY17: PKR 284mln, CY16: PKR 78mln). The biggest contribution came from related party dividends. Meanwhile, declining asset base resulted in high impairment charge to investment (mainly JS Infocom) as against gains achieved in previous year (CY17: loss of PKR 398mln, CY16: gain of PKR 351mln) denting operating profitability. Increase in borrowing during the year led to rise in finance costs (CY17: PKR 222mln, CY16: 145mln) further denting the company's bottom-line (CY17: PKR 366mln, CY16: PKR 622mln).
- Strategic investments increased to PKR 28bln owing to equity injection and capital appreciation during 1QCY18. The Company's revenues declined to PKR 269mln (1QCY17: 360) on the back of lower realized capital gains, while dividend income remained steady. JSCL has also booked a reversal of provision made for impairment against investments (1QCY18: PKR 125mln; 1QCY17: PKR 188mln) providing a breather to overall performance. At end of 1QCY18, bottom- line clocked in at PKR 243mln (1QCY17: PKR 410mln).
- **Sustainability:** Going forward, JSCL envisages further diversification as a group. It plans to increase its stake in insurance, energy, oil marketing and infrastructure sectors. In Apr18, JSCL's AGM approved a PKR 1,000mln investment (ordinary shares) in EFU General from time to time. JS Fuel (Private) Limited (JSFL), was granted a license by OGRA to establish an OMC following which JSCL announced the acquisition of an existing OMC. In this regard, legal approvals are currently in progress. Further investments of approximately of PKR 4bln are expected at this front.

FINANCIAL RISK

- **Capital Structure:** JSCL has a large equity base of PKR 28.8bln which mainly comprises of a sizeable unrealized gain on investments of PKR 12.8bln at end Mar-18. JSCL's borrowings comprise long-term loans in the shape of (i) Term Finance Certificates (TFCs), and (ii) Term Loans from commercial banks. To finance group energy projects, JSCL issued two new TFCs (10th and 11th issues) in CY17 and 1QCY18, adding PKR 3,000mln to total debt (end-Mar18: PKR 4,930mln). TFC 8 is listed on PSX while the others are privately placed; post-Mar18, TFC 11 is to be listed on PSX within 180 days of issue. A second Term Loan was obtained, from a commercial bank, amounting to PKR 500mln. New debt put upward pressure on Company leveraging (end-Mar18: 17%, end-Dec17: 13%, end-Dec16: 6%), nonetheless, remaining low.
- **Coverages:** Owing to low capital market performance and increase in interest costs, interest coverage deteriorated to 4.2x at end Mar-18 (end Dec 17:4x, end Dec-16: 7x).

Probability of Default

(22) PACRA’s Rating Scale reflects the expectation of credit risk. The highest rating has the lowest relative likelihood of default (i.e, probability). PACRA’s transition studies capture the historical performance behavior of a specific rating notch. Transition behavior of the assigned rating can be obtained from PACRA’s Transition Study available at our website. (www.pacra.com). However, actual transition of rating may not follow the pattern observed in the past | Chapter III | 14-(f-VII)
